Concept maps are generally graded or evaluated with rubrics.

Rubrics are scoring tools that use a predetermined set of standards to assess criteria that are complex and subjective; they articulate in writing the criteria and standards that an instructor will be using to evaluate student work. Rubrics can

A mind map is quite a straight forward tool, where you take a central concept, and then draw out subconcepts. So, for example, for this article, I could write “mind map article” in the middle of the page, then draw lines out from there and create subnodes with all the headings I’ll use in this article.
