Schonberger recounts the rise of the new Japan through the eyes of eight Americans centrally engaged in events of the Occupation. Aftermath of War provides insights into the recent conflicts between the U.S. and Japan and recaptures the ideological debate within the United States over the future course of Japan. It implicitly suggests that Americans and

The American Revolution, which took place between 1765 and 1783, was a successful revolt of Thirteen British colonies in North America against the British Empire. It ended with Britain officially recognizing the independence of the colonies and the formation of the United States of America. The American Revolution was the first successful revolution against a European empire; and it led to the first successful establishment of a republican form of democratically elected government.

Aftermath of World War I. The war transformed the world. It drastically changed the face of the Middle East, for instance. For centuries the Ottoman Empire had shaped life in the region. Before the war, the Middle East had three main centers of power: Egypt, the Ottoman Empire, and Iran. President Wilson's call for self-determination appealed to many under the Ottoman Empire's rule.
