Writing an Journal Article Summary Summarizing research articles will help you to develop your critical thinking skills and your ability to express yourself in the written form. Here are some practical hints on how to summarize a research article. A research article is written to get across a lot of information quickly to a reader.

Summaries and critiques are two ways to write a review of a scientific journal article. Both types of writing ask you first to read and understand an article from the primary literature about your topic. The summary involves briefly but accurately stating the key points of the article for a reader who has not read the original article.

UFV ASC Summarizing a Scholarly Journal Article Here is an example of a summary that displays a scholarly style: Susan McDonald's Professional Academic Writing in the Humanities and Social Sciences (1994) is a cross-disciplinary study which articulates epistemological differences in

Like an abstract in a published research article, the purpose of an article summary is to give the reader a brief, structured overview of the study. To write a good summary, identify what information is important and condense that information for your reader. The better you understand a subject, the easier it is to explain it thoroughly and

Evaluation Rubric for Written Summaries of Journal Articles Criteria Outstanding Very Good Good Satisfactory Unacceptable Appropriate details Judicious choice of details maximizes interest and understanding All relevant details presented, but details not critical to understanding omitted Enough critical details presented for understanding,
