### Remote Monitoring & Control Systems Company | DPS Telecom

SNMP is an internet protocol defined by the Internet Engineering Task Force (IETF). SNMP has become one of the most commonly used protocols in monitoring applications. Its main function is to monitor network devices for alarms that require corrective action and/or human intervention.

### SNMP MIB Repository - DPS Telecom

The beauty of an open protocol like SNMP is that the trap could be directed at any standard SNMP manager from any manufacturer (you could also use the DPS Telecom T/Mon manager, of course). Your SNMP manager could direct a response from the NetGuardian, such as turning on a backup generator to handle a commercial power failure.
